Retention: New First Year Cohorts Fall 2013-Fall 2022

PUBLIC VIEW

HOW TO USE THIS DASHBOARD

This report looks at the breakdown of undergraduate retention for the Fall incoming first year cohort for academic years 2013-2014 through 2022-2023. Retention is counted as subsequent enrollment the following Fall term at census date.

Overview shows the entering cohort of first year students, the number who return the fall of their second year, and their calculated retention rate. To expand the overview to the program level, please click on the [+] to the left of the school/department information.

LIMITATIONS OF THE DATA.

Academic plan/subplan alignment to school given data architecture is ongoing - some programs may not be correctly assigned to schools and departments. Reporting of Race and Gender data may differ from other internal university data counts due to the way data must be reported to IPEDS. Loyola University Chicago-internal data filters have been removed from this public view, including Plankey code, Pell Status, and First Generation Status.
